

SALT LAKE DAILY HERALD.

OGDEN CITY, UTAH.

OGDEN DEPARTMENT.

The branch office of THE HERALD is in Reed & Burgitt's iron building on Washington avenue, adjoining Boyle & Co.'s furniture store. Advertising rates will be made known upon application to the manager.

THE DAILY HERALD is for sale at all news stands and by all news boys, and is delivered by carrier in Ogden for 25 cents per week. Advertisers are notified that all orders for papers must be paid for in advance. Subscribers failing to receive papers promptly will confer a favor by notifying the circulation at the branch office. Parties desiring papers stopped or addresses changed must notify the branch office. E. A. LARSEN, Manager.

J. C. BOYLE, Circulator.

THURSDAY, April 3, 1890.

The City in Brief.
There were no jury trials in the First district court yesterday.

Box rents at the postoffice for the quarter commencing April 1, are now due.

All the railroads running into Ogden will give special rates during the Mardi Gras carnival.

The San Francisco Evening Post's Ogden edition was 48,000 copies. Another circulation came in yesterday.

Mayor Kiesel is of the opinion that Ogden will get a generous appropriation from Congress for a public building.

Every man now in this city who is able and willing to work, can have employment. There are very few tin horns and loafers here at present.

At the regular meeting of the chamber of commerce Tuesday night there was considerable discussion, but no business of any particular importance was transacted.

Although the building season has not yet fully begun, there is a scarcity of carpenters. Those who have taken contracts have great difficulty in procuring men to do the work.

Two peace-disturbers, E. Dolan and J. Kelly, were before his honor Alderman Presbury, yesterday. He kindly consented to let them board at the expense of the city for ten days.

A meeting of mine-owners and others interested in the development of our mineral resources, will be held in the federal court room this evening, commencing at 8 o'clock sharp.

A carefully compiled and correct directory of this city is greatly needed. Nothing of the kind is now in existence, not has there been one since that published by Cannon & Hazeltine several years ago.

James F. Kessel, Park City's ex-mayor, stopped over to look at Ogden yesterday, while on his way to Brigham Canyon, where he has lately become interested in some valuable mining property.

The new Fifth ward amusement hall is going up rapidly, and will soon be completed. When completed it will be an ornament to Madison avenue and a fit companion for the elegant meeting house adjoining.

Captain Howard, recently from Howard, Kansas, where he was for several years retained as an attorney for the Atchison, Topeka & Santa Fe, has formed a law partnership with our well known fellow townsman P. J. Bannister.

Only the case of Matilda Hatrich vs. E. R. Chase occupied the attention of Judge Henderson of the First district court yesterday. Judgment was rendered for the plaintiff, on consent, for restitution of premises and costs of suit.

If Ogden does not come into prominence through advertising the Mardi Gras carnival, then nothing else will make it known to the outside world. Every prominent newspaper in the United States has been engaged to advertise the carnival.

Now is a good time to enforce the sanitary regulations. Warm weather is coming soon, and all filth should be removed from the surface of the ground before the heat of the sun causes it to rot and taint the atmosphere and breed disease.

There are 143 real estate firms in this city at present and almost as many more preparing to go into the business. One of the firms now here say that their cash business was greater last month than during any previous thirty days since they came to Ogden.

The Ogden readers of THE HERALD are notified that during conference the Utah Central will run special trains between Ogden and Salt Lake City. The train will leave Ogden daily at 7:30 a.m. and arrive at Salt Lake at 9:30. It will leave Salt Lake at 6 p.m. and arrive in Ogden at 7:30.

There is some talk of several secret societies uniting and building a fine structure to be used for lodge meetings, etc. Should they do this, they would be able to erect a building equal to any now in the city, and there is no doubt that it would prove a paying investment to the stockholders.

The sidewalk ordinance calls for plank in all districts except No. 16, where asphaltum must be used. It is the general understanding that in this case plank is construed to mean plank or anything better. It is very probable that very few people will use plank, which is little, if any, better than gravel. Vitrified brick and coal tar will be used. Instead of plank, and in some cases gravel or other stone will be put down.

J. H. Spargo, who owns a valuable lot on Washington avenue opposite the Broom hotel, intends to erect a handsome four-story structure upon it this season. The lot extends only forty feet back from the street, so that the building will have to be confined to that depth, as it is not possible for Mr. Spargo to purchase the land in the rear, even by paying double what it is worth. Mr. Spargo is authority for this statement. The lower floor of the new building will be used for a store and the upper floors for offices.

Two inspectors have been in Ogden for two or three days, checking up and making a thorough and searching examination of the postoffice. They have satisfied themselves that the facilities for carrying on business are entirely inadequate, and will so state in their report to the department. They find, among other things, that it is not possible to inaugurate the free delivery system at present, and they say that it will not be inaugurated here until the street names are placed on all street corners and all houses are numbered. This calls attention to the fact that an ordinance of the city makes it the duty of the city engineer to assign a number to every house within the corporation limits, and that after that is done it is obligatory upon the house owner to place that number on his house. The city council were notified through this department of THE HERALD, last season, that Ogden would not get a free postal delivery system until the houses were numbered. A correct city directory is almost indispensable for the use of carriers in cases where letters are not directed to a house number.

Real Estate Transfers.

EVERYBODY KNOWS
That at this season the blood is filled with impurities, the accumulation of months of close confinement in poorly ventilated stores, workshops and tenements. All these impurities and every trace of scrofula, salt rheum, or other disease may be expelled by taking Hood's Sarsaparilla, the best blood purifier ever produced. It is the only medicine of which "100 doses one dollar" is true.
